

<p><b>SCRIPT</b> Initial plan – 360 project, options, what would lead on as an inquiry project. Meaningful, First Nations theme – showcase the Northwest and rural community</p>
<p><b>ACTION</b> Discuss, brainstorm, limitations, software, hardware</p>

<p><b>SCRIPT</b> Totem Pole Project – Selected CHSS Tsimshian Four Crest Pole carved by Henry Green</p>
<p><b>ACTION</b> Take pic of Pole. – Discuss options how to take 360° ?? Use static images and stitch – option?</p>

<p><b>SCRIPT</b> Possible option to 360 – Use Agisoft Photoscan – see Sitka Spruce avi. Figure out height issue – totem pole is abt 15-20 feet high</p>
<p><b>ACTION</b> Take multiple pictures – overlap abt 40 – 50%, same radius to circumference so that picture dimension is same. Test with one set of pictures to see if possible</p>
